High 5 Olympics

Teams challenge each other in various events which are organized so that at each event teams will challenge a different team so that they have a chance to interact with all teams at numerous times.

At each event they gain points for a variety of challenges and points are displayed on a big screen for everyone to clearly see. It's the first Olympic event that doesn't require years of training and you qualify to enter just by being a team player!

Every team member is involved in some capacity but no one is ever forced to do something they are not comfortable with. Teams not only work together but are also required to work with other teams as well to be successful!
